AMALFI  
COLLECTION

Amalfi is a silky, lustrous carpet made purely from ocean waste.

100% ECONYL® YARN

HARDWEARING  
CARPETS & RUGS

MADE FROM  
RECOVERED  
ABANDONED  
FISHING NETS

LUXURIOUS,  
SOPHISTICATED &  
CONTEMPORARY

“

The rug is great, perfect shade of grey, the distressed look is totally authentic and it will wear well. The border gives an elegant finish and the turnaround time was super-fast. Thank you so much!

Rene, Creative Director  
René Dekker Design Limited

## AMALFI – TIP SHEARED WOVEN CARPET

Amalfi is an eco-friendly tip-sheared carpet created using pre-consumer and post-consumer nylon waste including carpets and ghost nets recovered from the world's oceans and marine industries. Woven in a loop pile Wilton structure, Amalfi's richly textured surface is a random melange of cut & loop yarns, created by minimal differences in height of the individual tuft points, the higher of which are cut during the tip shearing process.

## MADE FROM RECOVERED OCEAN WASTE

A first of its kind, we're proud to offer Amalfi in our product range. A silky, lustrous carpet that is made purely from ocean waste and in turn helping to prevent harm to marine life. This carpet offers an eco-friendly and responsible approach to interior design whilst not compromising on luxury or quality.

## AMALFI - 100% ECONYL® YARN

Made with high quality recycled Econyl® Nylon recovered from abandoned fishing nets, Amalfi is delicate and very soft to the touch, where its revolutionary lustrous fibres reflect light giving the carpet surface a delicate shimmering quality that complements both contemporary and more traditional interiors. It provides comfort and warmth underfoot along with a robust performance due to its combination of loop pile weave and super strong fibres.

## HARDWEARING CARPETS & RUGS

The combination of the woven structure and highly engineered fibres offer superior durability and performance making Amalfi a perfect, sustainable product for high footfall areas in offices, hotels and residential properties.

The Amalfi Collection is available in a selection of weights, textures and six on-trend colours, along with three additional colours from our bespoke range; Sand, Silver and Pebble. You have the option to go all out with wall-to-wall coverage or create a bespoke, made-to-measure rug to become a talking point in your space.

## SPECIFICATION

Manufacturing method: Wilton Woven Carpet

Pile surface: Tip-shear

Pile composition: 100% Econyl®

N° tufts: ± 270.000/m<sup>2</sup>
